This wooded property for sale has access to a small fishing lake and it's just a few minutes north of **Wisconsin Dells**. It's located just east of the **Wisconsin River** system which includes the Wisconsin River, **Casile Rock Lake** Flowage, and **Petenwell Flowage**. You'll find excellent fishing in the River System. Species include sturgeon, muskellunge, smallmouth bass, large mouth bass, walleye, giant catfish and a diverse array of Panfish. If exploring the land is more to your liking, take a short drive up to Roche-A-Cri State Park and there you'll find hiking and bike paths, wildflower meadows, and an observatory way up on top of the mound giving you an amazing view of central Wisconsin. *(It's too far up there for me but there are steps up to the top)* This fully wooded piece of property has 600 feet of a gravel road frontage with deeded access to a small fishing lake just around the corner.
